

M-66

VALVE & BOX LOCATOR METAL DETECTOR

Fishers M-66 Valve and Box Locator is designed specially for finding buried or paved over valves, box's or vaults. In addition, the M-66 locates survey markers, water or gas meters, conduit, manholes and any other concealed metallic object.

The M-66 detects all metals including aluminum, brass, copper, iron, nickel, steel or tin.

Combining sensitivity and accuracy with maximum ground penetration, the M-66 eliminates any guesswork when pinpointing hidden metallic objects.

The electronic balance of the M-66 is easily and quickly tuned for detection within seconds while also allowing for maximum audio and visual indications.

In the Fisher tradition, the M-66 is affordable, tough, and simple to use while providing maximum performance. A two year limited warranty comes standard with the unit.

Features

- Simple operation - only 2 knobs
- Ultra-sensitivity and maximum penetration through soil, asphalt or concrete
- Ground rejection VLF (very low frequency) eliminates false signals
- Detects all metals
- Built-in battery test
- Analog meter and audio target signal
- Adjustable shaft
- Fully submersable 8 inch search coil
- Weather resistant design
